

'PERFIDIOUS ALBION' TO BLAME FOR WAR, SAYS GERMAN WOMAN

Popular Resentment Cherished Against "Dishonest Policy" of England, Which Must Be Humiliated.

LONDON, Sept. 18 (By Mail). A German view of the war and of England's part in it is shown in a letter written by a German woman in Aix-la-Chapelle to friends in England, which is printed by the Morning Post.

The writer of the letter is convinced that all must condemn the war, for which only the British Government and its policy are responsible.

"I am sorry to say that it is with England that Germany is most angry, because her policy has been so dishonourably dishonest. And England herself is a Germanic country. It is therefore comprehensible that only one wish is cherished here, that England may finally be so humiliated that she will leave us in peace for a very long time, and will try to convert us only with intellectual weapons."

"We are gradually becoming very indignant about the great tolerance shown by our Government to all foreigners—Belgians, Russians, Frenchmen and Englishmen—whom it permits to remain here. Collections are even being made for the poor among them."

WELSBACH PLANT RESUMES

Will Again Manufacture Raw Material for Gas Mantles. It was announced here today that the Welsbach Company has reopened its plant in Columbus, Ohio, which was closed down about a year ago because of unfavorable tariff conditions. The reopening was due to the cutting off of imports of thorium, which is the raw material for gas mantles. The supply of thorium came principally from Germany where it was manufactured from monazite sand, shipped from Brazil. The Welsbach Company was obliged to close its Columbus plant when the tariff went into operation as it made it cheaper to manufacture thorium here. The company is well equipped for such manufacture, however, and promptly resumed it when the European supply was shut down. It is expected that the Columbus plant will be in full operation by October 1. The plant at Gloucester, N. J., has been placed on its full winter complement, about 100 additional employees being added since the war work, bringing the total to over 1500. This is usual at this season.

Wright, 26 South Hancock street, were each sentenced to one year in the county prison for entering the apartment of Euday Hare, at 1209 Arch street, and stealing his silver, some gold articles and a silver watch.

PROGRESSIVES AWAIT R. R. QUAY'S LEAD IN WAR ON BOSSES

Looking for Message Announcing Pittsburger's Readiness to Engage in Move to Unseat Flinn and Van Valkenburg. The eyes of all Progressive party men in Pennsylvania who dream of the rehabilitation of their party in this State today are turned to Pittsburgh, awaiting some word from Richard R. Quay, who alone, they say, is able to initiate a movement to unseat William Flinn and E. A. Van Valkenburg and to give the party a new life.

The dictatorial and unscrupulous bossism of Flinn and Van Valkenburg, culminating in placing a Democrat on the Washington party ticket as candidate for Governor, yesterday led to an open declaration of war on the part of Richard R. Quay, of Pittsburgh, and William F. Deakins, of this city.

This afternoon Mr. Deakins is awaiting a telegram from Mr. Quay announcing that he is ready to assume a leadership in the fight to clean house in the Washington ranks, and to save the party from utter demoralization and early dissolution.

"Our eyes are turned to Pittsburgh, Mr. Deakins, said this afternoon, "for Mr. Quay is the only leader in the State capable of assuming control of the State-wide movement and marshaling our forces for action. The real Progressives in the State have implicit confidence in him and until he sounds the call we will merely mark time here and wait."

Yesterday Mr. Deakins sent a telegram of congratulation to Mr. Quay, expressing his delight at the stand he had taken and assuring him that the Progressives in this section appreciate the importance of his open declaration against Flinn and Van Valkenburg. Later Mr. Quay replied as follows:

"Thank you for your kind telegram. I feel that there are thousands of others in the State who think and feel as you and I do. "Today," Mr. Deakins said, "my telephone was kept busy by Washington party men in this city who were anxious to assure me that they stood behind Mr. Quay and myself and they are waiting for the signal to fall in line. Not only Progressives but several Democrats as well sent me their congratulations. A. Nevil Detrich, Washington party state chairman, refused to consider the movement seriously when it was called to his attention. "It does not even deserve the dignified name movement," he declared, "since as yet there are but two men back of it."

WASHINGTON, Sept. 18.—A serious attempt is being made to end the Republican filibuster against the river and harbor appropriation bill by means of a compromise was begun today. A lump-sum appropriation, amounting to \$20,000,000 to be expended largely at the discretion of the Secretary of War in continuing and making river and harbor improvements, was the suggestion. RAISE FOODSTUFFS

Whatever Happens, Food Is Never a Superfluous Luxury. Live men must eat no matter what else may happen. Food must be had for 100,000,000 population of this country, with much to spare for another 100,000,000, at least, in the countries now at war.

Only one European country among those now working mutual destruction of the ordinary means of living produces enough food for itself, even in time of peace. Whatever may be the outcome of the war, there will be an immediate demand for food, a demand that will increase the longer war is waged, a demand which will be met by the United States. With all channels of supplies from outside closed, with half a dozen nations in the condition rapidly taking form in Europe, we may look for a simultaneous movement in all the countries by the men and women not in the fighting ranks for enough food to keep them alive. They will not hesitate to take it wherever it may be found.

TRADE EXPANSION PLAN SUGGESTED BY EDITOR BROWN

Urges Business Men to Cooperate With Newspapers in Advertising American-made Products. NEW YORK, Sept. 18.—To counterbalance the "business inertia" which has existed in America since the outbreak of the war, James Wright Brown, editor of the Editor and Publisher, today suggested a novel plan, in which he calls upon every newspaper in the United States to take part.

The plan is for every newspaper in America to publish, on Wednesday, September 23, a special "Made in America Trade Expansion Edition."

"Fundamentally, the condition of American business is sound," said Brown today in explaining his plan. "The new financial system is being worked out on sound and liberal lines; we are at peace with every nation in the world, including Mexico. The great war opens wide the doors of American business opportunity. The only danger we face is that of apathy. It requires only characteristic American aggressiveness and confidence to enable us to reap a harvest of business and trade."
